

Technical drawing of an extruded aluminum profile. The dimensions are 102mm (length), 28mm (height), and 19.02mm (width). The profile features rounded ends with a radius of R9.60. A dashed centerline is shown along the length of the profile.

33"

Technical drawing of a rectangular table with rounded corners. The drawing shows the top view with dimensions and features. The overall width is 66, and the overall height is 58.68. The inner width is 58.68, and the inner height is 48. The table has a central dashed line and a 2.50 wide section. There are 12 circular holes arranged in a grid. The drawing includes a scale bar and a north arrow.

Technical drawing of a square plate with the following dimensions and specifications:

- Overall width: 140
- Overall height: 82
- Inner width: 118
- Inner height: 64,40
- Chamfer specification: $\varnothing 2,50 \text{ min.}$ / $\varnothing 3 \text{ max.}$

Technical drawing of a rectangular plate with the following dimensions and specifications:

- Overall width: 140
- Overall height: 82
- Inner width: 124
- Inner height: 60
- Four holes are located at the corners of the inner rectangle.
- Each hole has a diameter of $\varnothing 2,50$ min.
- The maximum distance from the corner of the inner rectangle to the center of the hole is $\varnothing 3$ max.

Technical drawing of a rectangular plate. The dimensions are indicated as 100,50 max. (width) and 67,10 max. (height). The drawing shows a rectangle with dashed lines indicating the maximum dimensions.

Technical drawing of a rectangular plate. The overall dimensions are 140 mm in width and 30 mm in height. The top edge has a 19 mm section on the left. The bottom edge has a 118 mm section in the middle. The left edge has a 30 mm section. The right edge has a 9 mm section. The drawing includes a hole with a diameter of $\varnothing 2.50$ min. and a hole with a diameter of $\varnothing 3$ max. The drawing is labeled with dimensions and tolerances.
