D710 Cree T6 Diving Flashlight

Diving

Product Feature

- This led torch uses of Cree T6 Led, producing very bright beam of light.
- Output brightness can come to above 1000 lumens, the illumination distance is up to 300 meters.
- The body of this flashlight is built of aluminum (6061-t6) alloy, and it has a very solid construction, hard-anodized finish, anti-abrasive, free-scratch, shock-proof.
- Internal wiring applies the high efficient booster, and can utilize the batteries in the largest extent.
- This torch is designed for 5 modes: Hi-Mid-Low-Strobe-Sos with magnetic switch.
- “O” seal rings insure that the flashlight remains waterproof to 200 meters or deeper, completely waterproof.
- Toughened ultra-clear glass lens with anti-reflective coating.
- This torch is powered by 26650*1 lithium rechargeable battery.

Our diving flashlight is tested and passed CE standards, also features an unbreakable Led and rubberized O-Ring

Product Parameter

Torch Body	Aluminum 6061-T6, anodized surface
Bulb type	CREE T6 LED
Light Brightness	1000 lumens
Power	10 W
(CCT) Color Temperature	5000-7000K

Beam Angle	8 degree
Beam length	300 meters
Battery	26650*1 lithium rechargeable battery
Burn Time	2.5-10H
Operation Mode	5 modes: Hi-Mid-Low-Strobe-Sos
Switch System	Magnet Switch
Size (mm)	54mm(Dia.) x 165mm(L)
Weight	382g(battery included)
