

C1611 = Product group; Product group discount C 16 1_

Wirewound Resistors
Series: KNP
Style: Taped
Power: 1W
Tolerance: 5%
Housing: 0411

- Features
- Wound on a ceramic core
 - Resistance wire securely crimped to the terminals
 - Small size
 - Electrical and mechanical stability and high reliability

Technical Specifications

Resistance Tolerance:.....±5%
Power Rating (T_U = 40°C):1W
Temperature Coefficient:±100ppm/°C
Insulation Resistance:.....>100MΩ

Note

• Please see product group C1110 for taped jumper wires and zero-ohm resistors.

Labelling

In accordance with EIA-code

Terms of Delivery

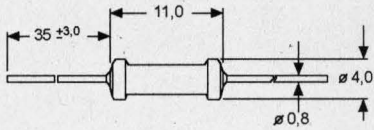

Minimum order quantity: 1 PKU = 100 pieces
Form of delivery: Taped; Orders of 1000 pieces: Ammopack

Manufacturer: Various
